

## Town Council refuse request to not build vital bridge

At the Saltash Town Council Planning and Licensing Committee held on 19 November 2024, Members present recommended refusal of planning application PL24/08269 to remove the footbridge contribution and replace with a sustainable transport contribution.

The original design was to have a footbridge from Pillmere to Berry Park creating a pedestrian and cycle route linking the two areas. This was part of the Section 106 agreement and a commitment by the developer at the time.

The Mayor of Saltash Councillor Julia Peggs said, “Being mindful of the frustration raised by residents during the consultation period Members wish to acknowledge these concerns and to support the need for the footbridge.”
